

Psychology: An Introduction

This is a contemporary take on a time tested classic. Students will master the central concepts of psychology with the new 11th edition of Psychology from Benjamin Lahey. The 11th edition has been thoroughly updated to include the latest research with an emphasis on Chapters 6 (Consciousness), 10 (Development) 14 (Abnormal) and 16 (Social Psychology). Lahey weaves scholarship based on empirical research throughout the text, ensuring an accurate portrait of contemporary psychology. The texts student-friendly writing, clear chapter openers, and fresh applications make the material more relevant to students than ever before, and the proven learning system ensures that all students will grasp the concepts presented in the book. Laheys hallmark emphasis on diversity and culture remains integrated throughout the text, making this the text for a well rounded introduction to all areas of psychology. ** This is the International Edition. Almost all international edition books have the same content inside, it just may have a different cover. Please visit this link for more clarification on the difference between U.S. and International versions of textbooks: <http://www.textbooksrus.com/books/information/ieinformation.aspx> Rest assured this book was used for class with absolutely no problems.
