Diabolical plans unfold to force Stefans ascension. His choice: pass the trials and become King of Earth or be killed. The corpus of supremely jealous beings would gleefully end his life, save for his passionate mates protection. Has a lust for killing been woven into her innocent core? Protection a two edged sword she is bound to euthanize him if his mind rips. Fairies are bound to promote love. Will the ambitious Queen of Sophista The Queen of the Distant Fairies ruthlessly stab Stefans innocence or simply instill Earth survival skills? Will Tys fathers dark past break his sons heart? For the loving couple and their Children of Sophista, has paradise been truly lost? The Federation seeks to dominate. The snakes lurk in the shadows, ready to strike and so does Atreyeu. This color Collectors Edition contains 27 full color nearly photographic quality illustrations with crisp text that is color coded for the different forms of telepathy. The book has a stunning appearance that must be seen to be believed. Series Description: Magic is an advanced science that humans dont understand. Two young people are betrothed at birth and forced by alien races to serve as the secret King and Queen of contemporary Earth: from the UK, Stefan, a seventh-grade artistic prodigy and from the US, Tova, a nineteen-year-old life sciences genius. Both were raised as humans and left to discover that they will be immortal at age nineteen. Using their emerging magic, they must protect the kingdom of Earth from unwanted alien intrusions. Shy, reclusive Stefan is ripped from his childhood and has eight weeks to learn to rule. Tova must do more than love Stefan she must keep him sane or kill him to protect humans from his irrational use of his powers.
