

# Obstetrics/Gynecology: Issues in Labor and Delivery (Audio-Digest Foundation Obstetrics/Gynecology Continuing Medical Education (CME). Book 58)

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners physicians and other healthcare professionals with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Obstetrics and Gynecology is specifically designed to provide the participant with state-of-the-art information, such as: Antepartum and intrapartum assessment Breast disease Contraception Domestic violence Dysfunctional uterine bleeding Ethical issues Female stress urinary incontinence Genetics Genital tract infections Gynecologic oncology HIV and AIDS Infertility Menopause and hormone replacement therapy Primary care topics Sexually transmitted diseases Risk management and legalities. The goal of this program is to improve outcomes of labor and delivery. After hearing and assimilating this program, the clinician will be better able to:

- 1: Identify patients for whom induction of labor is indicated.
- 2: Compare outcomes obtained with mechanical methods of induction to, eg, vaginal prostaglandins.
- 3: Determine whether conditions are appropriate for an operative vaginal delivery.
- 4: Evaluate the risks for complications associated with operative vaginal vs cesarean delivery.
- 5: Advise patients of the risks for morbidity, mortality, and developmental problems associated with elective late preterm delivery.
