

## Stories From The Quiet War

A collection of five stories, including a previously unpublished novella, set in the universe of the authors novels *The Quiet War* and *Gardens of the Sun*. Only available as an e-publication. After the end of the Quiet War, the victorious forces from Earth have taken control of the cities and settlements of the moons of Saturn and Jupiter. In *Making History* and *Karyls War*, the victors and the defeated discover that defining the end of the war isn't easy. In *Incomers*, a young visitor from Earth learns of an unexpected reconciliation. In *Second Skin*, a spy attempting to kidnap a valuable gene wizard discovers that he isn't quite what he thought he was. And in *Reef*, the discovery of a fast-evolving ecosystem of vacuum organisms in a planetoid in the Kuiper Belt has far-reaching implications for the spread of life throughout the Solar System.
